

Student Volunteer Opportunity

Do you need volunteer hours to complete highschool? We have a virtual opportunity for you!

Sedai; The Japanese Canadian Legacy Project needs your help! With over 700 hours of audio and video recording, we need help with metadata tagging, transcription editing and transcription of our interview footage.

Interested Students would need to

- would have to complete a Volunteer Registration with the JCCC,
- commit to completing at least 1 full interview for us,
- attend (and get volunteer hours for) a virtual Background and Training session (approximately 30 minutes),
- listen to an entire Sedai Oral History Interview (access provided through private Vimeo link) and complete the provided check list for any of the terms that they hear in the interview,
- return the completed check list to the JCCC within a mutually agreed upon amount of time.

Volunteer hours will be determined based on the interview assigned. New volunteers will start with metadata tagging and progress as interest demands.

If you are interested in this volunteer activity please contact heritage@jccc.on.ca. New training sessions are being planned!
